**Mechatronics
Europe**

Medical

- Scaling up the value chain via full logistic configuration of an existing product (entrusted with full customisation responsibility by customer)
- Negotiating a design project with a new global customer
- Looking into a number of Design-for-Asia projects

Semiconductor

- Further engagement in next generation (EUV) lithography equipment
- Strategic discussions with customer to assume design responsibility of an essential module in lithography equipment

Analytical

- Successful market launch of a completed design project
- Starting a development project for a new global customer
- Finalizing a development project for an existing customer (with market introduction expected soon)

New Project Plans

Mechatronics Asia

Medical

- Engineering prototype production orders of parts for a new diagnostic products to be fulfilled in 1Q11 – on track

Semiconductor

- Series production of modules for a new customer to commence as planned

Analytical

- Ongoing qualification of new parts and modules for 2 new instruments for an existing customer
- Completed Phase 1 of a value-engineering cum re-design project for an existing customer

Industrial Automation

- New automation stations for an existing customer with commercial production in 1H11 on schedule

Others

- Ongoing evaluation of new projects for precision machining and sheet-metal modules for a number of new customers
- Completed qualification of 2 major projects for an existing customer with series production anticipated in 2Q 11.

- Continuous flow of enquiries and RFQs for new projects from existing and potential customers (resulting from the global integration of our Mechatronics Division).
- Forecast from customers of Mechatronics Europe indicate an increasing trend in demand for the medical and analytical business segments
- Barring any unforeseen circumstances, prospects remain positive for 2011

FY2010	-3.7%

Sales Analysis – Office Automation Segment

Currency: RM million

4Q10 Review

- Sales increased 68% y-o-y and 14% q-o-q
- Stable q-o-q sales in FY2010 albeit some volatility due to the timing of billings for toolings & product-unique equipment for ongoing industrialisation projects

Sales Analysis – Automotive Segment

Currency: RM million

4Q10 Review

- Sales increased 87% y-o-y and 76% q-o-q
- Stable q-o-q sales in FY2010. Sharp increase in 4Q10 due to increase in product sales as well as billings for toolings and product-unique equipment for ongoing industrialisation projects

Sales Analysis – Others (Includes Telco) Segment

Currency: RM million

4Q10 Review

- Sales increased 28% y-o-y but decreased by 8% q-o-q
- Sales of parts and products for telco business segment has been reclassified to "Others" segment (following the discontinuance of the keypad business in February 2010)
- In view of the above, y-o-y comparison is not meaningful

Office Automation

- Ongoing industrialisation of this significant project is on schedule. Target to commence commercial production in 4Q11 is on track

Automotive

- Ongoing industrialisation of a significant project for an existing customer. Commercial production anticipated in 4Q11 is on track
- Another ongoing significant project for an existing customer has just completed tooling and automation line launch. Production in commercial volumes anticipated in 1Q2012
- A number of smaller industrialisation projects are proceeding as scheduled with commercial production anticipated to commence between 2Q11 to 4Q11

- Prospects of securing new projects and new customers in the automotive business segment remain positive
- Revenue from the automotive and office automation segment is expected to remain stable for the next few quarters with higher growth anticipated from 4Q11 onwards
- Barring unforeseen circumstances, significant growth is anticipated from 1Q 2012 onwards when the current ongoing industrialisation projects go into commercial production
- The value added contribution from the office automation and automotive product segments are expected to progressively compensate for the loss of contribution from the keypad business segment in FY2011

Safe Harbour For Forward-Looking Statements

This presentation contains certain statements that are not statements of historical fact, i.e. forward-looking statements. Investors can identify some of these statements by forward-looking items such as 'expect', 'believe', 'plan', 'intend', 'estimate', 'anticipate', 'may', 'will', 'would', and 'could' or similar words. However, you should note that these words are not the exclusive means of identifying forward-looking statements. These forward-looking statements are based on current expectations, projections and assumptions about future events. Although Frencken Group Limited believes that these expectations, projections, and assumptions are reasonable, these forward-looking statements are subject to the risks (whether known or unknown), uncertainties and assumptions about Frencken Group Limited and its business operations.

Some of the key factors that could cause such differences are, among others, the following:

- changes in the political, social and economic conditions and regulatory environment in the jurisdictions where we conduct business or expect to conduct business;
- the risk that we may be unable to realise our anticipated growth strategies and expected internal growth;
- changes in and new developments in technologies and trends;
- changes in currency exchange rates;
- changes in customer preferences and needs;
- changes in competitive conditions in our customers' industries and our ability to compete under these conditions;
- changes in pricing for our products; and
- changes in our future capital needs and the availability of financing and capital to fund these needs.

Given these risks, uncertainties and assumptions, the forward-looking events referred to in this presentation may not occur and actual results may differ materially from those expressly or impliedly anticipated in these forward-looking statements. Investors are advised not to place undue reliance on these forward-looking statements.

Investors should assume that the information in this presentation is accurate only as of the date it is issued. Frencken Group Limited's business, financial conditions, results of operations and prospects may have changed since that day.
