

**FRENCKEN GROUP LIMITED**  
(Company Registration No. 199905084D)

**Announcement**

---

**UPDATE ON THE GROUP'S MANUFACTURING OPERATIONS**

---

The Board of Directors of Frencken Group Limited (“**Frencken**” or the “**Company**”, and together with its subsidiaries, the “**Group**”) wishes to provide an update on its manufacturing operations.

On 3 April 2020, a Multi-Ministry Taskforce in Singapore announced the implementation of an elevated set of measures as a circuit breaker to reduce the risk of further local transmission of Covid-19. The measures include the closure of most physical workplace premises, save for those providing essential services and in selected economic sectors, from 7 April 2020 to 4 May 2020.

The Group wishes to inform that its factory in Singapore will continue its operations during this period as it provides manufacturing services that are part of the supply chain for essential products such as semiconductor and healthcare equipment.

The Group will closely monitor the evolving Covid-19 situation, and shall keep shareholders apprised of any material developments as and when they arise.

On behalf of the Board,

Dennis Au  
Executive Director

7 April 2020

---

**About Frencken Group Limited**

Frencken Group is a Global Integrated Technology Solutions Company that serves world-class multinational companies in the automotive, healthcare, industrial, analytical & life sciences and semiconductor industries.

Frencken Group operates on a worldwide scale through its established local presence of 17 operating sites and 3,400 employees across Asia, Europe and the USA. Working in partnership with its growing base of global customers, the Group unites the strengths of its strategically located businesses to create value for a wide variety of end-user markets.

Leveraging on its advanced technological and manufacturing capabilities, Frencken Group provides comprehensive Original Design, Original Equipment and Diversified Integrated Manufacturing solutions. The Group's extensive solutions span from product conceptualization, integrated design, prototyping, new product introductions, supply chain design and management, state-of-the-art value and volume manufacturing services to logistics solutions.
